The menn arranged by the editors of Specess in the May number contains a long list of wholesome dishes, spiced with Inspiration and good cheer. Success has no sympathy with pessimism, as its pages show, hut fliugs far and wide the essence of nptimism which in a large measure is responsible for its spirit-stirring qualities. The May number contains some Important articles showing the poward trend of the world. The opening article is by Rebecca Harding Davis and Is entitled "The Return to the Soli." Israel Zangwill in "What Have the Hebrews Accomplished?" has clearly defined the distinctive qualities that have made a powerfui race; Eiieu Terry, the great English actress, gives some well earned advice to stagestruck girls in a vaiuable paper entitled "An American Giri's. There are several notable pletorial features of peculiarly timely interest and also others of an artistic flavor in the Magazine number of The Outlook for May. Art and music are respectively represented by an article on the great Spanish painter Sorolla, written by one of his pupils and ilinstrated by reproductions of paintings and original sketches, and by a thoughtful, critical and personal article on the work of Grieg by Daniel Gregory Mason. Western interests and commerciai interests are brought to the front in Mr. Ray Stannard Baker's "The Commerce of the "Great Lakes."
